Paris, 10th—In the Deputies to-day the Radicals revived the Panama question, demanding a Commission of Inquiry into the scandals denounced by Arton. Viscount Hugues, a member of the Right, violently attacked ex-Premier Rouvier, for his participation in the scandals. M. Rouvier replied vigorously, and so eloquently that all sides of the House and the public in the gallery applauded him loudly. Premier Meline then spoke, in severe terms of the tricks of the opposition, and asked for a vote of confidence which was passed by 262 to 244 votes. The House then voted adjournment till May 18th, the Premier undertaking to summon it at once in case of anything serious arising in connection with the Eastern question.

London, 10th—The *Times* to-day received a telegram from Elassona, announcing that a Council of War is sitting under the Presidency of Edhem Pacha to decide on what is to be done in view of Greek's bellicose conduct. The telegram furthermore states that Turkish troops will probably cross the Greek frontier in a short time.

Bucharest, 10th—The Cabinet crisis continues. The Parliamentary Sessions have been prolonged in view of this.

Vienna, 10th—The papers of this city still express belief in a peaceable solution of the Eastern Question. They say that the Great Powers have definitely agreed to blockade the ports of Greece on Monday next.

Athens, 10th—Telegrams from Elassona report fighting going on since 11 o'clock this morning between the Turkish troops and the Greek invaders near Gebena. The Turks tried to surround them, but failed, and the Greeks are ready to continue their march forward. The latest despatches say that the Turkish artillery that took part in the action suffered serious loss at the hands of the invaders.

Four of the advanced Turkish posts were annihilated, and their arms and ammunition captured by the patriots.

Cettigne, 10th—Telegrams from Lerant, a city in Albania, report bloody fights between Albanese, Mussulmans and Christians which occurred there yesterday and to-day. Several of both parties were killed, and others severely wounded. Great excitement prevails.

Paris, 10th—Government to-day received a telegram that the French Authorities in the Society Islands have banished Queen Raiatea, and many Chiefs for being implicated in a conspiracy to overthrow French rule. The Queen and other conspirators were only captured after a hard fight in which 50 natives perished.

London, 10th—Latest telegrams from the Turco-Greek frontier, announce that the Turkish troops will probably take the offensive.

Athens, 10th—Two bands of well armed Macedonian insurgents entered Turkish territory on Wednesday morning under the command of Grecian officers.

Canea, 10th—Six hundred and fifty Russian marines were landed at Rithymo to-day.

Athens, 10th—Commodore Kriesis assumed the command of the Greek fleet at Arta to-day.

Madrid, 10th—Telegrams from Santo Domingo report numbers of Cuban refugees as constantly arriving there.

THIS MORNING'S TELEGRAMS.

(*Received after Midnight.*)

London, 11th (1 a.m.)—The latest despatches received from Macedonia state that it is confirmed that among the Greek bands which have invaded that Province, there are both infantry and artillery belonging to the regular army.

Great anxiety is felt here to know what the Sultan will do.

Athens 11th, 12.30 a.m.—Bulletins were issued this afternoon by several papers, giving an account of what is going on just across the frontier. It is explained that Greek regulars have actually been engaged with Turkish troops, but that they were compelled to do so to defend themselves from an attack made on them by the Sultan's forces, since when the latter were driving across the frontier some insurgent bands, the Greek out-posts were also fired on.

The popular excitement is, if possible, on the increase and a war with Turkey is clamoured for on all sides.

Paris, 11th—The Grand Duke Schwerin has just died in Cannes.

Athens, 11th—A Telegram from Larissa dated this morning at 3 o'clock announces that fighting still continues between the Greek forces which invaded Macedonia and the Turks. The Greeks have occupied the Turkish town of Baltino and are besieging the garrison of 800 men shut up in the barracks.

London, 11th—The Admiralty has telegraphed to the Commander of the cruiser on the Jamaica station to pursue the "Bermuda" which, under the British flag, is steaming to Cuba with an armed revolutionary expedition on board of her.

OUR EXPORTS TO THE STATES.

According to telegrams received yesterday, the Dingley Tariff is giving rise to a deal of resentment all over the world, and our esteemed colleagues take special pleasure in commenting on all the threats of retaliation thundered from Berlin, Vienna, and other great centres of Europe. Meantime, in the American Senate the protectionist fever is still rising, and the latest piece of news is that a specific duty may be proposed at any moment on wools coming under the third category, at the rate of five cents per pound. Argentines must not be alarmed at these advices, as our American cousins must buy a certain class of our coarse wools, and the high duty falls only on the American people: just as the Argentine duty on export of hide falls on Argentines not on Americans.

The new revenue or protectionist tariff of the United States will not tend to increase our commercial relations with the Big Republic. As matters stand our trade with the United States is declining. We have written on this subject frequently and at length, but it was only yesterday that we managed to complete a table of the exports from Argentina to the United States in 1896—figures that have not yet been made public and which will excite much interest. Beginning with quantities we find that the exports during 1895 and 1896 to the States compare as follows:—

	1895	1896
	Tons	Tons
Sugar	25	6,387
Goat-skins	845	965
Kid-skins	4	—
Sheepskins	510	88
Nutria-skins	1	½
Salted-hides	2,038	—
Dry hides	16,099	9,643
Quebracho extract	42	105
Bones	7,659	4,600
Wool	12,187	9,560
Linseed	10,700	—
Jerked Beef	383	37
Bird-seed	555	492
Rags	184	13

The only item that shows a great increase is sugar—and when the Dingley Tariff is in force we must abandon all hopes of seeing our sugar travel to the States, as special care has been taken to burden bounty-fed sugar export: not satisfied with a heavy import duty, America will collect on our bounty-fed sugar a further duty equal to the bounty paid here. This is prohibitive with a vengeance, and will hurt the feelings of our Union Azucarera. We see in the above table that wool and hides show a very sharp falling-off. In the following table of the value of exports to the States the total of our export trade thither can be easily grasped and compared:—

Produce	1895	1896
	$ gold	$ gold
Bird-seed	15,000	9,000
Horns	3,000	—
Saw-dust	....	100
Preserved meat	....	—
Sugar	4,000	958,000
Cedar	7,200	2,250
Horse-hair	310,000	121,000
Goat-skins	507,000	580,000
Kid-skins	6,200	—
Carpincho skins	3,300	—
Sheepskins	54,000	4,200
Nutria-skins	1,500	700
Salted hides	293,000	—
Dry hides	5,302,000	2,940,000
Salted horse hides	1,600	—
Various hides	5,000	1,000
Quebracho extract	4,300	10,500
Hide-cuttings	600	4,000
Bones	83,000	44,000
Dirty wool	1,822,000	1,714,000
Linseed	321,000	—
Ostrich feathers	7,000	5,000
Dry blood	2,000	—
Tallow	21,000	—
Jerked beef	56,000	2,500
Tripe	2,000	5,000
Rags	1,800	100
Various	113,500	1,650
	8,947,000	6,401,000

Thus, the export trade to the States which amounted to $8,947,000 in 1895 fell to $6,401,000 in 1896. If this decline takes place under the comparatively liberal provision of the present American tariff, what a "degringolade" must ensue under the Dingley Revenue Tariff! It looks as if in the near future our exports to the Big Republic will be reduced to, say seven thousand tons of wool and ten thousand tons of dry hides! Then we shall have a fine opportunity of talking of reciprocity and the plausibility of extending our commercial relations with the North—especially if Argentines are foolish enough to put on more duties on kerosene, lumber, and agricultural machinery. It is a melancholy thing at this tail end of the Nineteenth Century to see nations surrounding themselves with Chinese walls, in the shape of prohibitive tariffs that shut out the world and cause no end of misery to humanity at large.

OPENING OF THE GRAVING DOCKS.

The preliminary opening of the graving docks at the northern extremity of the port took place yesterday. Mr. Dobson, the well-known engineer and member of the contracting firm of the Port Works, had organized an excursion for the occasion, and all who had the good fortune to be present enjoyed a very pleasant day's outing. At 2 p.m. the guests began to arrive and to assemble at the southern extremity of Dock 3, where the port steamer Burslem, in all the glory of flags and bunting, was snugly moored awaiting the party. Most of us who stood there on the wharf remembered the primitive times when the Plate flowed uncontrolled over the present site of the monumental port works; when carts plied through the shallow waters between the coast and the lighters, when the never to be forgotten mole stretched its skeleton for some hundred yards into the river. In those days the ocean-going monsters that lie at a stone's throw from the Government House used to anchor ten or fifteen miles out. But for the energy, the enterprise and, we might even say, the imagination of Eduardo Madero—for it required a brilliant effort of fancy to peer into the future, and perceive in the penumbra of coming events such a port as to-day embellishes this country and symbolises its vitality—but for Eduardo Madero, say we the amphybious cart might still be plying and the old mole standing. But turn we to yesterday's ceremony, which, as we have already said, was of a preliminary character, for the official inauguration of the graving-docks is to be celebrated in due time. At 2 p.m. there was quite a knot of guests on the deck of the Burslem, while the genial host kept looking out for others who had yet to be welcomed. "En fin", towards 2.30 p.m. we moved off slowly and, we presume, majestically, for the Burslem is a fine boat breathing gracefulness and strength. We passed into Dock 2, then to No 1, then to the Darsena—ocean going vessels lining the sides, loading or unloading.

It had been the intention of Mr. Dobson to issue from the port and come round by the North Channel thus entering the splendid new basin. It certainly would have been a delightful trip, for the day was mild and the sun just warm enough to make a strong breeze agreeable. But time pressed, and we retraced our course. As we passed into dock 4—recently opened—the corvette Argentina saluted as, and an unpretentious dredge treated us to a dismal howl which, though pleasant to the mind as an indication of vapory welcome, was anything but agreeable to the tender tympanum of the unaccustomed ear. Soon we burst on the beautiful expanse of the north-basin. Near the entrance stands a neat pile, just presented by Messrs. Madero, as a Hydrographic Office and Observatory with all necessary appliances, to the National Government. While we gazed at the entrance which seemed to most of us to be of uncommon width, the Burslem came alongside the landing between the two graving-docks. We jumped ashore and peered wonderingly and not without a sense of dizziness into the enormous cavity of the excavation—colossal baths for the giants of commerce. The pumping-house—a neat, red brick structure—stands between the two docks, and here we had occasion to inspect the powerful engines which within three hours can empty either of the docks. The first part of the ceremony now began. Mrs. Madero, Mrs. Massini and Mrs. Silveyra lit the boiler-fires. We then proceeded to the West Dock, which Mrs. Dobson and Mrs. Walker inaugurated. The valves were opened, and immediately there burst on the ear a rumbling, subterranean noise, followed by a roar and a splash; and in rushed the waters, foaming, seething, jumping, boiling, raging like an army of mountain-torrents, and filling us, spectators, with an indescribable awe of Nature's forces, of which this mad flow harnessed in the service of man, was but an insignificant fraction. True to calculation, 30,000 tons of water rushed into the dock within 20 minutes. And when the liquid, following the natural law, had found its level the heavy caisson, which had withstood the pressure of the Plate, and guarded the artificial cavity, swerved gently, slowly, moving round gradually. It was a splendid sight highly suggestive of the all-conquering genius of man, and of the power of labor, enterprise and capital.

The West-Dock has a length of 150 metres: the other of 180. In our next we shall give some technical particulars which will be found interesting. We now jumped into the train which awaited us, and after shunting on to the line running at the foot of the Paseo de Julio Park, we returned at a pleasant speed, passing the foundations of the new warehouses along the basin and docks. All admired the brick-work. As soon as these buildings are finished, they will certainly embellish the port. Complete as the Madero Port may now appear, it is not yet in a position to cope with the demands upon its shelter, until the coast-craft docks between the sea-wall and the present wharves, have been constructed.

Towards 5 p.m. we arrived at the Contractors' Office, where sandwiches, cakes, champagne, tea, and coffee were served. Mr. Dobson asked his guests to drink to the health of Mr. Walker who, with his family, is returning to England in the R.M.S. Nile. Mr. Walker replied and thanked all present; after which the party broke up, thoroughly pleased with the excursion, and fully convinced that these port-works are a credit to the nation and to British brains and capital.

Those present were:—Mr. Mrs and Miss Dobson, Mr. and Mrs Walker, Mr. and Mrs Madero, Mr. Mrs and Misses Silveyra, Mr. and Mrs Duclout, Mr. and Mrs Lange, Mr. and Mrs Simpson, Mr. and Mrs Luiggi, Mr. and Mrs Massini, Mr. and Mrs Davenport, Mr. and Mrs Talbot, Mr. and Mrs Carmona, Mr. and Mrs Rankin, Mr. and Mrs Adam, Mr. and Mrs Tomkins; and Messrs Longfield, Harrison, Van Rees, Gonsalvez, Liversidge, Mulhall, Cassini, Wallis, Junor, Amespil, Ghilazzi, etc., etc.

MR. NICHOLAS MIHANOVICH.

Faithful to our promise, we give hereunder some biographical particulars of this extraordinary man, whose wonderful success in life may be traced directly to qualities which any one may cultivate: activity, energy, sobriety, and love of work which is a logical consequence of the combination of the three. Mr. Mihanovich was born in Doli, in the province of Dalmatia in Austria, and in his boyhood assisted his father, who was humbly employed in the conveyance of wines from one district to another. Young Nicholas subsequently went to sea. He embarked as a sailor on board an English vessel bound for the River Plate. On his arrival in Montevideo, he deserted. Barefooted, he wandered to the nearest exchange-shop to change the only money he had in the world, a one franc piece. To his intense dismay the coin proved to be a false one. That was in the year 1866. He managed to come up to Buenos Ayres, scraped a few dollars together, and went off to the Paraguayan war to start a canteen. This put some money into his pocket, and on the conclusion of that terrible campaign, he returned to Buenos Ayres and bought a whale-boat. That purchase was the starting-point of his success and fortune. He conveyed passengers to the steamers in the Roads. He carried goods. He saved money. He purchased another boat, and then another. Trade grew and Mihanovich prospered. Subsequently he entered the house of Matti and Piera, owners of a few tugs. He soon made his presence felt and rapidly acquired the management of the concern. Then he started on his own account and bought two tugs, the Buenos Aires and the Kitty. In 1878, his business was so flourishing that he bought the steamers Feliz Esperanza, Sol Argentino, Rivadavia and Tejedor. Two years later, he started the Toro on the Bahia Blanca route. He conveyed material for the Southern Railway to the Liverpool of the South. He likewise started a steamer-service to Staten Island in the South Atlantic, but this be quickly abandoned, for in spite of a Government subsidy, the business did not pay expenses. Ac-

cording as his fleet was increased by his judicious purchases, he kept opening new lines to different towns. It was he who started the service to Colonia and Carmelo. In 1888 he purchased for $60,000 the flotilla belonging to Mr. Santiago Massalin, and comprising four steamers. In the following year he acquired the 13 steamers belonging to the Rapida Co. He paid $440,000. He also purchased the five steamers belonging to the Remolcadora paying $170,000 gold. From Mr. Vicente Casares he bought ten lighters for $140,000, and from Mr. Carlos Casado two tugs and eleven lighters for 772,000. About the same time he had the following splendid tugs built in Europe:—Dalmacia, Austria, Doli, Adriatico, Drysdale, Count Kalnocky, Villar, Torito, Atlantic, Luis Huergo, Kolu and Doña Catalina. The Dalmato was built in the Riachuelo. He moreover, purchased a tug and five lighters from the Central Argentine Railway Co., the steamer Luna from Lamport and Holt, the Queen Victoria from the Southern Railway Co., three steam barges and two steamers from W. Samson and Co., and finally the Platense steamers for £93,000 and the Golondrina for £20,000 In 1882, Mr. Mihanovich was appointed Agent of the Austrian Lloyd and representative of several Austrian Steamship Companies. In 1887 he was appointed Austrian Consul General. Emperor Francis Joseph has conferred two decorations on him. Mr. Mihanovich's flag flies over the following steamers:—

Venus, Eolo, Saturno, Olimpo, San Martin, Golondrina II, Lucero, Luna, Lafayette, Aurora, Austria, Adriatico, Arielle, Assab, Batitu, Castor, Czar, Conde Kalnoky, Cardiff 1°, Dalmacia, Delta, Doña Catalina, Dalmato, Doli, Drysdale, Enriqueta, Guanaco, Luis Huergo, Maldonado, Monte Lindo, Nuevo Leon, Noord, Oriente, Onix, Pingo, Presidente Mitre, Presidente Roca, Presidente Sarmiento, Presidente Derqui, Presidente Urquiza, Presidente Avellaneda, Presidente Rivadavia, Primer Correntino, Rapido, Stagno, Torito, Vulcano, Vigilante, Victory, Venus, Villar, Indiferente, Queen Victoria, Koeln, and 56 sailing-vessels.

The report of the general manager affords ample evidence of the continued development that is going on in the districts served by the railway, while the still more satisfactory results that have been obtained from the working of the line since the close of the first half of the financial year give the Board every reason to anticipate a further substantial improvement on closing the accounts for the whole year.

As explained by the general manager the working expenditure, which shows an increase of £29,369, has been prejudiced to the extent of £18,000 by the lower average rate of premium on gold ruling during the half-year as compared with the corresponding period, while an additional sum of £8,464 has been contributed to the special reserve funds, leaving only £2,905 as the extra cost of handling an increased traffic representing £67,469.

It must not, however, be overlooked that a temporary saving has been effected in the workshop expenses as the result of the strike, which will entail additional expenditure during the second half of the financial year.

In common with the other principal railways of the Argentine Republic, the management have had to contend with a strike of a very serious nature, the details of which are set forth on page 11 of this report.

While congratulating the proprietors on the satisfactory termination of what at one time promised to be a source of considerable prejudice to the Company the Board wish to place on record their high appreciation of the tact and ability displayed by the general manager, Mr. Barrow, in resisting the unreasonable demands of the workmen, as also of the loyal and zealous service rendered by the general staff who remained faithful to the Company throughout this trying period, thereby enabling the working of the line to be efficiently carried on during the three and a half months' continuance of the strike.

The agricultural industry of the River Plate has been very seriously affected by an unprecedented invasion of locusts; and while, fortunately, the districts served by this Company have escaped without suffering any material prejudice, the crops in other parts of the country have sustained considerable damage.

After providing for the interest on the Debenture and Preference Stock there remains an available balance of £243,850 11s. 3d., out of which the Board have decided to pay the usual interim dividend on the Ordinary Stock for the half-year at the rate of 5 per cent. per annum, free of income tax, carrying forward a balance of £18,850. 11s. 3d.

The Board desire to acknowledge the services of the Local Committee, the General Manager, and the staff of the railway generally, during the past half-year.

BRITISH HOSPITAL.

The Annual General Meeting of the Trustees and Subscribers to the above Institution will be held at Prince George's Hall, Calle Cuyo 1226, on Wednesday 28th April at 4 p.m., for the purpose of receiving the Report and Accounts for the year 1896, and of filling the vacancies on the Committee.

SPECIAL MEETING.

On the conclusion of the annual meeting a Special General Meeting of subscribers will be held to consider alterations (as follows) in the regulations of management that are proposed by the Committee:—

Rule Nº 6 as now—5. The Committee of Management shall appoint a qualified Medical practitioner to act as Senior Medical Officer under the professional direction of the Consulting Medical Officers.

The Committee may at their discretion allow the Senior Medical Officer to reside outside and to engage in private practice so long as this does not intertere with his duties to the Hospital.

He shall be responsible to the Committee and shall receive such stipend as the Committee may deem fitting, and in the event of such Senior Medical Officer being allowed to be non-Resident, the Committee shall also appoint a Junior Medical Officer at a salary to be fixed by the Committee, who shall reside on the premises and shall not engage in private practice either in or out of the Hospital.

Alter to—The Committee of Management shall appoint a qualified medical practitioner to act as Senior Medical Officer, who shall be responsible for the treatment of all Patients. He shall receive such stipend as the Committee may deem fitting and shall not carry on any private practice within the precincts of the Hospital.

The Committee shall also appoint a Junior Medical Officer at such a salary as they may fix. He shall reside on the premises and shall not engage in private practice either in or out of the Hospital. The Committee shall also have the power to provide such further professional assistance as they may from time to time deem necessary for the efficient working of the Institution.

Rule Nº. 7 as now.

7. The Committee of Management shall appoint two or more British qualified medical men practising in Buenos Aires as Honorary Consulting Physician and Surgeon, who shall be ex officio members of the Committee of Management and shall possess a vote at General Meetings. They shall have powers of General Supervision over all cases in the Hospital and shall give their services gratuitously.

Alter to. The Committee of management may at any time elect one or more duly qualified Medical men to act at members of the Committee. The post shall terminate when a new Committee takes office.

The Committee may also appoint duly qualified medical men from time to time to act as consulting specialists in various diseases, and are authorized to pay such fees as may be agreed upon. All these appointments shall terminate when a new Committee takes office.

Rule No. 10 as now:

10. An order from the British Consul, the Chaplains serving on the Committee, or the Visiting Medical Officers, guaranteeing the poverty of the applicant, shall be sufficient to procure admission, subject to such arrangements as the Committee from time to time may decide on.

Alter to. An order given by any member of the Committee guaranteeing the poverty of an applicant shall be sufficient to procure admission subject to such arrangements as the Committee may from time to time decide on.

The Medical Officers are also authorized to admit poor patients under the same conditions.

CAMPAIGN AGAINST LOCUSTS.

Mr. Richard Huergo, Chief of the National Agriculture Bureau, has forwarded to the headquarters of the Army staff a detailed account of the organization and object of the three commissions which are on the eve of leaving to explore the breeding ground of the obnoxious locust, which has done so much harm to agriculturists and farmers in this Republic. The first comission is composed of 50 troopers belonging to the 5th cavalry regiment of the line. The second one has also 50 troopers of the 11th regiment and the 3rd commission a similar number belonging to the 12th cavalry regiment. The first will leave the city of Salta and go as far as the Bolivian frontier, returning thence to the city of Oran and then along to Santiago del Estero. The second commission will start from Reconquista passing through the Chaco Austral and to Chaco Salteño, returning toward Rivadavia, coming down the right bank of the River Bermejo and wind up in Resistencia. The 3rd commission has orders to leave Formosa, march through the Central Chaco to Rivadavia, and then back to Reduccion, winding up by exploring the right bank of the River Pilcomayo, and finish up in Alto Uruguay. A military engineer will be attached to each of the commissions.

Cables from the United States state that the Heads of the Agricultural Bureaux have selected Professor Lawrence Bromer as locust expert for the Locust Investigation Committee appointed by the merchants of Buenos Ayres. It may be remembered that H.E. Mr. William Buchanan, American Minister near the Argentine Government, offered his friendly services to the Locust Committee, and wrote to the Chief of the Agricultural Bureaux in the United States, and these gentlemen, after considering the requirements of the Committee, have made their choice. The ratification of that choice remains with the Committee, and the matter will be decided at the Committee meeting to be held to-morrow in the offices of Messrs. Toso, Crane and Co. We may, therefore, expect the arrival of the American Expert next month.

SPORT.

NOTES AND ANTICIPATIONS.

With a touch of winter about the weather, it looks is if to-day the track will be in fair going order, though it must still be so sodden underneath by the heavy rains that form may take many a queer turn. The Classic is a nice stake of $5,000 in which Balcarce and Devoná, considered the best colt and filly so far, will measure pace and stamina for the first time, whilst to give outsiders a chance there are Pepina and 25 de Mayo with a trio from the Paris stud, all supposed to be worth booking. As the fillies have done better time than the colts we shall give the doubt in favor of the ladies. It is a pity that Loncoy, Yanguetrú and Alarife are not engaged in the big event, as they would certainly be well supported, especially Loncoy, who seems to be coming on apace; however, the three meet in the 2 year old handicap which will thus be almost more interesting than the classic. Loncoy will be the favorite, but it should not be lost sight of that Alarife beat Yanguetru much easier than the Prisionero colt, whilst again it is quite on the cards that Yanguetru might turn the tables on both. In the opening event we can see nothing to beat Cristiana except it be Fauvette who has not been stripped this season yet, though she would rob the race in any kind of condition. The long distance should fall to Cantiniere as she should have little difficulty in presenting Ortegal and Stamboul with 4 and 5 kilos, and Ataque with 3, whilst Malvina, who receives a nice pull, seems to be all to pieces. In the Mile, Oriel, despite his impost, should be very close, but we have yet to see if he can give 15 kilos to Lautaro, who is very smart from slips. The 1500 metres will lie between Esfinge, Brick, and Eureka, as the light-weights are of the scare-crow stamp, and in the final we fancy Hugonote. Our selections, therefore, are:—

Amianto	stakes	Cristiana
Clovis	"	Lonkoy
Progreso	"	Devona
Etoile	"	Cantiniere
Primera	"	Esfinge
Ontario	"	Lautaro
Independiente	"	Hugonote

ARGENTINE YACHTING CLUB.

The members of this Association held a meeting on Friday evening to discuss the many proposals sent in for the selling to the Club of several pleasure boats. The diversity of opinions of the members on this proposal gave rise to a great deal of discussion until it was finally resolved to appoint a Committee of three members to purchase two yachts. Put to the vote the following gentlemen were elected:—R. Kinch, Alberto Lanus and George Kimball, who were given "carte blanche" with reference to purchasing the new yachts. The coffers of this club, if not full to the brim, at least contain a good supply of cash, and can, according to the Treasurer, meet many payments without putting the Club in any straits.

To-day the German colony will be "en fete", as the Teutonia inaugurates its splendid new boat house, a fine, handsome, commodious building as appears from the engraving on the invitation cards issued. The trains start at 8.50 Rosario and 8.15 Central Argentine. Members of the Committee will meet and welcome the visitors, and we understand that the German Minister, Baron von Mentzinger, with all the other members of the German Diplomatic and Consular Corps will be present. The Committee likewise issued invitations to all the Legations and Consulates, so that it is quite possible the inauguration may wear a decidedly diplomatic air. After the usual serious part of the business has been got through, the company will betake itself, about 11 o'clock, in boats, pinnaces and launches to the Isla Aguirre, where there will be breakfast "al fresco y a la Criolla," lashings of the splendid Quilmes brew, and an ample supply of Mr. Hermann's famous Rhine wines, though we should add for the benefit of those who patronise the latter, that it will be at their own particular expense. After breakfast a mock revival of the great naval encounter at sea-born Salamis "en miniature", then boat races in which ladies will also take part, and spell of the "light fantastic," and finally home to Aue. It is a thoroughly Teutonic programme of course, but a very complete and taking one all the same. If we only knew how to cheer in German, our cousins should have the regulation three right off the drum.

The JockeyClub, we learn, has arranged a "Gentleman Riders" race for the 9th of May, at which any broth of a boy who can stick in the pigskin, to start with, and prevail on the owner of a "pepper" to oblige him, to end with, can take part. That is to say it is not confined to members of the Jockey Club, but at the same time candidates for the silk and hessians must be presented by two members to be eligible. These amateur races are very good sport indeed, though we cannot say conscientiously that the best horse ever wins, and no sarcasm meant. The jockey generally has a bigger say in the last 500 metres than the horse; and more power to his elbow.

YACHTING.

The Holy Week cruise of the Yacht Club seems to be limited this year to the Gladys, Veloz, and Gaviota, which left the Tigre in squadron last night for the Uruguay by way of the Fisherman's Channel, between the Islands and Martin Garcia—a short cut, saving about fifteen leagues. The cruise is expected to extend to 8 or 10 days, and there seems every expectation of reaching Paysandú, where our friend Mr. Hufnagel will be awaiting his fellow yachtsmen in his centre board cat boat, the fastest and most weatherly boat in the Uruguay. The Fray Bentos "mess" will be fittingly saluted by the squadron, and through its members we are sending our best 'recuerdos' to Mr. Gunther and his equally 'simpatico' assistants.

FLORES FOOTBALL CLUB.

There will be a practice game at the ground of the above Club to-day at 4 p.m. All members are particularly requested to attend.

The following will represent the Old Bedfordians in their match to-day with the Flores Athletic Club. Train leaves Once at 10 a.m.

R. W. Anderson, (Captain), H. B. Anderson, R. E.H. Anderson, J. O. Anderson, A. Anderson, E. L. Rumboll, J.H. Jacobs, L. Jacobs, F. Morony, W. Jacobs and L. Rawlins.

FOOTBALL.

A Committee Meeting of the Argentine Association Football League will be held on Tuesday evening next at 8 o'clock in the Criterion Restaurant. As the Meeting is a very important one, and as the fixtures are to be arranged and discussed, the presence of all the representatives of the different clubs is particularly requested.

RAILWAY AND OTHER ITEMS.

The Minister of the Interior yesterday approved in general the bases of the arrangement made with reference to the settlement of the Transandine Railway Guarantee Question. H. E. promised that the final arrangement will be made after Holy Week. We published the particulars of this question in our issue of Wednesday last, the 7th inst.

Messrs Furtado and Co. have petitioned the Finance Minister to make the Barraca Peña a Fiscal deposit.

The Finance Minister will shortly decree that the "Arqueos" Office shall in future be a dependency of the Port Prefecture.

The representative of Mr. C. Bright has petitioned the Finance Minister to be allowed to give bills for the duties on the materials for his electric tramway to Belgrano, until Congress opens and he can ask for free despatch of his materials. The Rentas Office has reported in favour of the petition.

LA PLATA.

(From our own Correspondent)

April 10th.

The following are the alterations made in the train time Table for the coming winter Southern Railway:—From Constitucion to Dolores and B. Blanca 8.20, arriving at B. Blanca at 6.40 p. m. the next day. A dining saloon car will be attached to the train from Tandil to Bahia Blanca. These trains will leave Plaza Constitucion on Mondays, Wednesday and Fridays and will start from Ayacucho for Necochea at 5.50 a. m. arriving at their destination at 10.50 a. m. Trains will leave Tandil on Mondays and Thursdays at 7 a. m.

Trains from B. Blanca for Constitucion, via Dolores, will leave on Mondays, Wednesdays and Fridays at 7.50 a.m. arriving at the Plaza at 8 a.m. next day.

The night trains from Plaza Constitucion for Mar del Plata will cease running from the 1st of next month.

The running between Maipú and Mar del Plata will be in combination with one leaving Plaza Constitucion at 6.35 a.m. on Sundays.

The Southern Railway Company will also suppress the first train which leaves Constitucion at 7 a.m. for Saladillo and 25 de Mayo.

Mr. Lozano, Chief of Police in the Province of B. Aires, will not insist on resigning his post. This is due to the influence of well known people and the request of Governor Udaondo. The Executive has dismissed the clerks charged with illegal proceedings at the recent elections.

The scrutiny of the election of 28th ult., in Section 5, without counting the false return from Saladillo, gives the following results:—Radicals 3922, Mitristas 3678, "Vacunos" 3054, Autonomists 286.

Each of the 3 principal parties consequently sends 4 members to the Chamber of Deputies, always provided the elections are accepted by that Chamber.

THEATRES AND AMUSEMENTS.

At the Politeama to-night, by general request, they will give "Casa Paterna." In this piece, Ermete Novelli as Selke, the retired colonel, is simply wonderful, and being well supported by Sra. Giannini and the rest of the company, the piece is well worth seeing.

"La Boheme" will be given to-night at the Odeon. The rehearsals have been most satisfactory, and a really good representation of the opera should be the result.

Frank Brown's circus has been at the San Martin for just one month, and the audience seems to increase at every performance. Last night, the Nagel family who have become wonderful favourites by reason of the feats they execute, introduced some new features, which were greatly applauded. Paco Busto, the popular clown, made a very comical entrée, and Frank himself was "hor de ligne." The extravagance "The Viennese Orchestra" was received with shouts of applause as were also the children Vargas and Bisaccia.

To-day there will be two performances, that in the afternoon being devoted, as usual, to the little ones, who will be regaled with chocolate.

EDITOR'S TABLE.

Sunday again, and rest for everybody except editors, policemen and other unfortunates in the minority. The sport card of the day will be found in another column—racing, cricket and tea, Tennis etc: wives and weather permitting. There was a good nip of winter in the air yesterday, and daily bread men were looking up their old top-coats, or thinking of buying new ones. The news from Europe was hot. The Bourses are alarmed at the invasion of Turkey by the Italian volunteers, who were speedily made to skedaddle by the Turkish troops, which are now all moving and may already be in Greece. The latter refuses to assume responsibility for the volunteer raid into Turkey; but the Athens mob are still howling for war.

Telegrams were received last night stating that Lamas at the head of 8,500 men is marching on Paysandú. The Revolution is reported as triumphant in Minas, Rocha and Florida, and the Government is so alarmed that reinforcements are to be immediately sent to Canelones. This news appeared last night on the blackboards of the Sala de Informaciones started by the *Diario del Comercio* and illuminated by the famous Acetylene Gas of Messrs. de Boismenu and Co. The arrival yesterday at the Mount of the remnant of the gallant 2nd Cazadores who were almost annihilated in the battle of Tres Arboles, was made the occasion of a public manifestation. The soldiers were cheered by an enthusiastic crowd, who, though at heart revolutionist, could not refrain from thus giving vent to their admiration of the courage of the brave Cazadores.

There was a diplomatic pow-wow at Government House yesterday, when the new Bolivian Envoy, Dr. Telmo Ichazo presented his credentials, with the usual addenda of State Coach, mellifluous speeches, gold lace, cocked hats, swords, sabres, etc. There was an unusually large attendance of army officers, from Generals down to Captains, and it was remarked as a significant coincidence, that this occurred during the temporary absence of the Minister of War.

The public still believe, in spite of all that is said to the contrary, that there was dynamite in the cart that blew up on Thursday, and that the rockets on the top were only a blind. This is extremely probable. Rockets would have exploded in a series of reports, and not with the cannon shot, single bang that was heard even at Flores. This fact cannot be got ever.

Ho! Ho! In spite of the sharp lesson he is receiving, that great and good individual President Borda cannot restrain his Chilian sympathies, and intends to give a grand official blow-out to the Chilian squadron, under Admiral Goñi, should this gallant officer change his mind, and call at Montevideo, instead of going straight from Rio to Valparaiso. The chances are that Lamas will be in Montevideo long before Admiral Goñi, and then the question will be, "where is Borda?" And the answer will be "far, far away."

What is Buenos Aires coming to? From Thursday morning till the law courts closed yesterday, no fewer than six fresh divorce cases were laid before the Judges! There is a veritable epidemic of divorce raging at present. The Law Courts have closed for Holy Week, and will not be opened again till Monday 19th. It strikes us that Argentine Judges are prodigiously fond of holidays, and love "ferias" as schoolboys do.

The Civil Court of Appeal issued yesterday its decision on the proposal to suppress the publication in the papers of all cases before the courts that can affect public morality. The voting was three to two, Judges Solar, Arrotea and Gimenez voting for the suppression, and their learned brothers Diaz and Gelly against. Thus, for the future the public will not be shocked and demoralized by the publication of these unhappy cases.

Who would not spend his dollars and go a trifle out of his way to hear the Paradise and the Peri from Moore's exquisite Lalla Rook? The music is by Schuhmann and the cast a splendid one, with our friend Mr. Schulke, a fine, deep bari tone, in the leading role, Mr. Ch. Lindheimer as tenor, Miss Elsa Lindheimer and Miss Clara Hauser, etc. It will be a treat for all lovers of music, being the first production of the piece, which has called much attention at home, in the Plate. The Deutsche Sing Akademie of course gives the concert, its 129th, and it comes off to-morrow.

A number of our readers who are anxiously awaiting the arrival of the shipment of Kensington Art Squares expected by Messrs H. C. Thompson and Co. of 380 Artes, will be delighted to hear that the bales were received last afternoon from the Custom House, so now we advise them to call and inspect the assortment without loss of time in order to have first choice of the designs. There is nothing so serviceable for bedroom use as these square carpets, which being all in Art tints, lend a great charm to any room.

The Chilian squadron of new ships under Admiral Goñi is on its way from England and will be at Rio next week. There was the intention of giving the Chilenos a grand reception, but the Government refused to contribute a cent without the permission of Congress, which won't meet till next month, so the Fiesta Reception Committee has broken up, and the whole racket will be confined to a Press Commission going on board to salute the Admiral and his officers. Somehow, there seems to be no love for Chile to spare on the East Coast just at present.

Business of all kinds is increasing so fast in South Barracas, owing to the proximity of the Central Produce Market and large factories of all kinds, that Mr. Sloan the energetic manager of the Co-operative Telephone Company, has opened a new office there in Calle General Mitre 44, to meet the requirements of a fast growing list of new subscribers.

The news from Montevideo is worse and worse for the Red Rose. One account says that the Whites are so near the capital that they have seized the waterworks at Santa Lucia and threaten to cut off the supply. Lamas' men have captured Sarandi, and have routed Casalla's Division near Minas, which town is filled with his stragglers. In fact, things all round look blue for the Reds.

There was piscatorial news from the capital of the quondam empire of Brazil yesterday, where the commercial crisis is swelling daily, exchange going to the dogs and big smashes are expected. Since the day Dom Pedro was turned out Brazil has not had a quiet moment—revolutions, commercial or financial crisis, falling exchange and all kinds of trouble in succession.

The new Municipality loan won't hold out very long. Four hundred more squares of the city are to at once repaved, but the money well be will spent (if the work is not scamped as usual) as the pavement in the greater part of the city is at present disgraceful.

We beg to congratulate Capitan de Fragata Esteban de Loqui on his appointment to second command of the ironclad Garibaldi: this is tantamount to Commander of the noble ship as her nominal commander is Chief of the Squadron. Capitan de Fragata Loqui has a good record behind him as Captain of the Villarino and of La Patria, and here we beg to contradict the statement that the latter ship ran down one of Lussich's tenders at Colonia. The gallant Commander was one of the more active auxiliaries in getting off the unfortunate Santa Fé from the Colonia shoals.

A very pleasant trip was made yesterday by a pleasure-party, composed largely of ladies, invited to informally open the new graving-docks: full particulars of the excursion will be found in another column.

Dr. Cardenas, impelled by a feeling of "noblesse oblige" and gallantry to the fair sex in distress, recently lent to a lady styling herself Mrs. Eufemia Martinez, the sum of $2,500 on the representation that though she had recently gained an important lawsuit she was for the moment short of funds. The learned gentleman, it should be said, had ascertained, previous to making the loan, that a suit had really been won by such a person. When, however, he went to see the property, to his surprise and disgust, he found that the genuine Eufemia Martinez was not his friend to whom he had lent the money. Dr. Cardenas has laid his complaint before the Courts, but it is doubtful if the fair swindler will be easily found.

There was a bit of a pow-wow in the Darsena on Friday evening at 6 o'clock when the Venus was leaving for Montevideo. There was a pretty big crowd of people, mostly Orientales, and mounted police and Marines lined the Dock to keep them back. All the fuss was about Uruguay's Special Envoy, General Tajes, who was expected to leave for Montevideo, but didn't. The Government were afraid of an "atentado" or at least something unpleasant, and hence the display of force. The result was tremendous inconvenience for the passengers going to Montevideo, who had the greatest difficulty in getting on board, owing to the questioning and cross questioning they had to endure from the police.

We have to thank Dr. George Newbery for a handsome album with splendidly executed views of the now great mining city of Johannesberg, which was only a collection of wooden shanties a few years ago. The city is now, in the best parts, one of palaces, the style of architecture being very similar to that of the houses in Avenida de Mayo.

Captain Mahan's long expected book "The Life of Nelson" made its appearance simultaneously in London and New York on Thursday, and has made a general hit, the English critics considering it a masterpiece. We suppose all our pushful 'librero' friends will have the book here in three weeks. At the present juncture, with Britannia'e navy growing in leaps and bounds to hold her mastery of the seas, a new biography of her greatest naval hero is doubly interesting.

The lingering interest in the explosion was still alive yesterday, and the accounts of hair-breadth 'scapes were almost as numerous as on Friday. It appears that it is the War department, not the Municipality, that is responsible for the manipulation of all explosive matter within the city bounds. If so, it is to be hoped that it will look sharper in future.

King Humbert, who is generally looked on as one of the most popular monarchs in Europe, must have vexed the Romans in some way—perhaps by the Cretan policy of the Government. On his way to and from Parliament the other day, the populace, who were wont to cheer him wildly, let him pass in freezing silence, and in some places the ominous shout, "Eviva la Republica" was heard.

Bad news from the Granary of the Republic. High rents for land, no more credit at the almacens, no seed to sow the new crop, and general disgust at the bad times are forcing many of the farmers in Santa Fe to migrate to other parts of the Republic to make a fresh start in life.

In spite of the diplomatic and other unpleasantness that has forced Captain Jones, H.M.E.E. and M.P. in Lima to shake the dust of that city from his boots for ever, some 25 of his friends have given him a farewell banquet. The gallant Captain will be here next month on his way home to England.

An interesting squabble has arisen between the tenants and the landlords of the houses in Calle Mayo that had their windows shivered by the explosion. Which of them is to pay the glazier? There cannot be any doubt about it—the landlords.

His dear cousin German cannot sleep at night through thinking of John Bull's goings on in South Africa. Mein Herr's latest notion is that John has purposely got up the rebellion of the natives against the Portuguese, in orderr, under pretence of helping the latter, to land troops and seize Delagoa Bay! Meanwhile the British Foreign Office has officially denied the rumour of the occupation of the island of Inyack in said Bay by the British squadron.

The Government must give way in its absurd refusal to allow the erection of a temporary station on the site of the burned down old Central. The public outcry is tremendous, and all our colleagues now re-echo it. During the recent rain storm hundreds of unfortunate passengers were drenched to the marrow; and not a few of them are in bed with dangerous colds. The numerous foreign visitors now in our midst cannot, positively, believe either their ears or their eyes when the true inwardness of this disgraceful affair is explained to them. The cat-like tameness of the public under the circumstances, astonishes them beyond measure.

The numerous friends of Mrs. Hanly will be glad to hear of the news published by our esteemed collegue *The Southern Cross* in its last issue. She has just come in for another large fortune of £200,000, left by her grand uncle in Canada, brother of the late Mr. Terence Moore, of this city, her grandfather, from whom she inherited £400,000.

The 54th Congress of the United States, that recently "died", during the two years that it was in session passed appropriations aggregating $1,043,437,018.53. The total appropriations of the 53rd Congress were $993,639,205.69 a difference of $49,797,812 84.

Here is an interesting paragraph from a London paper of the 20th ult. It throws more light on how our Chilian friends interpret the Pax Multa Protocol and Queen Victoria's arbitration than comes to us here across the Andes. Reuter's correspondent at Valparaiso, writing under date 11, says:—While the boundary dispute between Argentina and this Republic has been referred to the arbitration of the Queen of Great Britain, this does not prevent the Government of this country from looking well to its navy, army and coast fortifications In fact never, in the history of this Republic has there been shown so much activity in all branches of the service as during the past year. By a recent order in Congress the army—infantry, artillery, and cavalry—is not to exceed 9,000 men, while in July last the National Guard enrolled numbered 36,365 men. The navy by the same order is to consist of 14 war vessels, 17 torpedo vessels, 7 despatch boats, and 8 hulks and 3 transports, and be manned by 4616 men and officers. At Talcahuano a new fort is being constructed, where there will be mounted four Krupp 42-ton guns. In the bay of Valparaiso there are no fewer than 11 forts, some which are being greatly remodelled and protected. Distributed amongst these are over 30 guns of different sizes and patterns, including four Krupp's 42-ton breechloaders. Near Playa Ancha and the adjoining lighthouses there are five forts for coast protection. Some of them are at present only second-class forts, but these are being improved to first-class rank. In the arsenal behind Fort Covadonga there are large supplies of war material, including a considerable number of Armstrong's latest patterns of guns for transport service, to be fired either by electricity or percussion, and also a quantity of the latest patterns of Maxim quick-firing guns. so that, whatever happens now, Chili is thoroughly well prepared.

FASHION AND ACTUALITIES.

The change of the weather, like every human thing, has its good and bad side. To finish quickly with the latter I will begin with it and speak to you about the invasion of colds which colours the nose and makes the voice hoarse. I may entertain you with this subject, because I was one of the first victims of this inconvenience, but happily I know the best remedy against the most inveterate cough. I go straight to the pharmacy "Franco-Anglaise" in Calle Cuyo 579, which is, in parenthesis, certainly the cheapest chemist's shop in all Buenos Aires; and I buy some boxes of the excellent Seneguina the depot general of which is there, and psitt! in 48 hours I am all right again!

If you have caught a cold, try this remedy, dear readers, it is really marvellous, and the treatment is not at all disagreeable, the lozenges have a good taste, and they impart to the palate a sweet and delicate perfume.

Now, that I have referred to the inconveniences that the fall in the temperature brings us, I will attack the other side of the question and speak about the beautiful things that the first change of weather has started on us all of a sudden, like a jack-in-the-box. All the dressmakers milliners etc.....were expecting this psychologic moment to show us the charming and lovely things that they have received from Paris. At the head of these ladies, I must cite Mme. Lecolazet, who recently came back from Paris with a large lot of novelties and new patterns. By the bye you remember, my dear lady readers, that this house, so well-known for its stays and all sorts of elegant fancies, has changed its premises, and is now installed at calle Florida 524, in a real "bonboniére." Mme. Lecolazet has more than ever at the disposal of her clients a very handsome choice of fine underlinen, so dear to elegant ladies, silk under skirts etc.....

The change of house by this amiable lady is to-day an old story, but at the beginning of this new season I give myself the pleasure to repeat it, to save you all trouble, and if you are a little bit curious, you may, on paying a visit to Mme. Lecolazet, admire two marvellous "trousseaux" ordered by her in Paris, and just arrived this week.

Whilst I am in Calle Florida, I want to conduct you to Mme. Obry's house, the salons of which are at No 664. As dressmaker, Mme. Obry's reputation becomes day by day greater; this last season at Mar del Plata she obtained a wonderful success with some creations in very refined taste, and I could cite with pleasure a countrywoman of yours and her daughter, if I were not afraid to startle her modesty, whose toilettes were admired by every lady. At this moment Mme. Obry possesses a beautiful selection of Autumn stuffs, that certainly you will not find elsewhere; because it is the gift of ladies with good taste like Mme. Obry, to know how to order in Europe materials that are not met with everywhere, or to be seen in every show-window.

I have not yet told you that the cape is decidely dethroned; it cannot resist the disappearance of the voluminous sleeves. Now, to take the place of capes, fashion has created a kind of straight "bolero" without "pinces", and I should recommend this 'bolero' only to slender ladies; but I must say, to be truthful, that I am not at all in raptures with this latest novelty.

Furs become daily more in vogue, they are going to be put everywhere, as I had the pleasure to tell you in my last correspondence. We are about to wear not only fur jackets, but also fur as trimming on the dress, on our hats etc. So that it is quite natural that I should give you a good piece of advice about this article of feminine toilette.

I would recommend you to buy your furs only in earnest, nothing is so easy as to be mistaken, and often in order to not expend some more money you buy a fur which has the same look as a very good one, but after the first Summer, you lose your pretty purchase, because it has been badly prepared and cannot resist the moths. It is as you see, very important to patronize only houses of confidence like that of Mr. Leonce Jonquieres, whose establishment the 'Dock du Voyage' has for so long been known by every elegant family, and I must not forget to give you the new address of this old house; Mr. Jonquieres, has his premises installed in Calle Cuyo near our friend Bradford, and in front of Mr. Neyer's pharmacy to which I referred at the beginning of this article. This furrier, who knows all the delicacies of his trade and possesses an assortment which defies all competition, will sell you only goods of all confidence. The purchase of a fur is of such importance as to merit mature reflexion for its selection.

Speaking as I have done, don't you think, dear readers, that I follow in the steps of Greece's seven sages?

Parisine.

FIRST RING..... 194.70
SECOND RING..... 192.80

There is evidently little to be got out of reasoning over the unreasonable state of the gold market but a financial headache, and as people are beginning to realize this, there is no longer the staring amaze, previously manifested, over the fall. Not that the situation has been explained, or the puzzle solved. The ring is quite as much at sea as ever as to the causes, but it has got tired of shuffling and shaking, churning and straining after anything reasonably clear, and sensibly accepts what it cannot upset. Meantime we have gold as heavy as lead, the bottom of the tub shivered to splinters, rates tumbling head over heels, and no push or speculative manœuvring whatever. Strange truly. Because exchange is also on the slump, and gold shipments a prospect that it would be useless to try and close the organs of mental vision to. Such being the case, that is to say a reconciliation of the phases of the market being impossible, the most sensible thing naturally is to take the situation as it stands. Gold is dropping, tumbling, collapsing—so much the better; it would be a cause for alarm if it were the other way about, but as it is not, and as there is no rigging move at play, there is no solid ground for the apprehensions aired by some, who argue that this very abnormal state of affairs is the very worst symptom we could possibly have, signifying, for them of course, a complete smash-up in trade, suspension of remittances and severe crisis. That things are not very well with us in trade lines is self-evident; the constant falling in of the minnows will draw in the Tritons too, and thus the only hope of an immediate rally is based upon the outlook for the next harvest. But, "dum spiro spero;" things might be worse, and at all events we are not likely to find any improvement by reversing the lever. Things are bad certainly, but it is a comfort they are not worse.

The following is a summary of the business effected at the first ring to-day:—

$ 384,000 cash at 295-295.20-295.50-295.30 295.20-295-20-30-50-30-20-295 295.20-10-30-20-295-294.80-70.
$ 190,000 April 30th at 296.50-297-296-296.50-297-296.50-296-296.50-296-295.50.
$ 10,000 April 24th at 297-296.
$ 15,000 April 12th at 295.70-295.30
$ 168,000 April 15th at 295.20-50-296-295 80-70-296-295.50--296--295.80-70-50-295-294.80-70.
$ 5,000 May 15th at 298.
$ 105,000 May 31st at 298.50-299-50-299-50-299-298.50-298.
$ 20,000 June 30th at 300-300.50.
$ 5,000 Sept. 30th at 303.

$ 902,000

National Hypothecary Cedulas—
For cash.. F 1,000 at 86.50.
Obligaciones Constructor—
For cash... 1,500 at 7.50-60.
Cia Primitiva de Gas—
For cash.. 50 at 213.
Catalinas Moles—
For cash.. 3,900 at 8.50.
April 14.. 400 at 8.50-60.
April 30.. 400 at 8.60.

When it is considered that out of a total of 902,000 nearly half was for cash alone, the dearth of interest in business on time can be readily grasped. In consequence the pass contracted all along the line, and with the cash supply very free, the price opened at 295 to close weak at 294.70. After the hour it was hard to find buyers over 294. In stocks Catalinas were a bit firmer, owing to the rumour afloat of the ruling of the court being ready for publication. Some Nat. F's were done at 86 ¼, and old Gas at 213, which seems a firm rate.

The exchange market seems more ticklish every day. The supply of bills is not up to the mark, so that there is no back bone in rates. There was little done to-day, and brokers reported a deadlock, drawers at 47¾, takers at 47¾d. We quote the following as takers' raters:

London—47¾d.
Paris—5.02 fcs.
Antwerp—5.03 fcs.
Hamburg—4.09 marks.

The rate in Rio is wired 7 15/16d weak.

Discounts are very quiet, fair movement in the banks, and rates sustained.

What an amount of trouble can be created by something a little out of the ordinary, every-day course of affairs in the commercial world, was well illustrated by the arrival of the Cunard liner Hurania at New York recently, three days overdue. She had on board the regular English Mail, and the bulk of the American securities delivered at the last fortnightly settlement on the London Stock Exchange. Large quantities of high class merchandise that had arrived a few days before by the St. Louis and other fast steamers had to be sent to the Custom stores, instead of being delivered at once from the steamers, as the invoices were not at hand, and several of the largest foreign banking houses appeared on the market as large borrowers of securities to fulfil their contracts, which operation excited much comment until the explanation was forthcoming.

The market will be interested in learning that the famous lawsuit Koch Bros. v. Enthoven has come to a close, the sentence expected in a few days. There are some very ticklish points settled by the ruling which will, therefore, much interest the market. Another item from the law courts is the sentence of Dr. Celoné, ordering the president of the Grain Elevators and Deposits Co., Mr. R. Inglis Runciman, to abstain from all division or distribution of the lands or funds of the Company until such time as the suit brought by Drs. Gmo Torres, Fr. Oliver, M. Castellanos, E. Butti and V. Piñeiro for smashing the proceedings of the shareholders' meet-

ings has been decided. Still another item is that Messrs J. Oraza and Co., wine merchants, have applied for a moratorium shewing $79,247 assets, and $62,101 liabilities.

According to Messrs. Staudt and Co's. circular the following are the wool shipments from this country, Oct. 1st to March 31st inclusive:—Lamport and Holt Line 106,451 bales, A. M. Mr. Renato Altieri, who has arrived in this city after a general tour through the Province of Santa Fé, reportsthe granary of the Republic in a deplorable condition. The locusts have left the once splendid crop fields as bare as a billiard ball, thereby ruining all the colonists. Hundreds of families are absolutely starving,as almacenes and general dealers refuse to give them a red cent of credit, knowing very well that they will never be paid. One respectable Italian farmer had to sell a chacra in order to keep the wolf from the door! Business in general has also suffered very heavily, and many merchants have been compelled to close their doors, as the once prosperous colonists are now, but bad debtors. An idea of the state of affairs which prevails in this province may be fully gauged by the fact that a collector belonging to a well known firm here in Buenos Aires set out to collect $13,500, but only returned with $100!! Comment is needless.

Advices from San Cristobal report that an enormous swarm of locusts has settled down in that Department.

Advices from the Rio Negro state that the heavy rains that began in the first days of March continue: in fact March has been the rainiest month on record. The result is that the camps are very green and grasses high: the season so far has been most favorable although the green pasturage has put animals back a little.

The National transport Santa Cruz left the Darsena this morning at 11 a. m. a crowded and full ship, for the South. She takes a lot of materials for Camarones Bay. She calls at all ports South of Patagones. Some horses are also sent down in the transport.

Several of the house owners damnified as to their plate glass by the explosion request us to advise that their claims have been most promptly and fairly settled by the Precavida Company, which is a title of consideration for the Company and a solid comfort for the insured. We understand the Fire insurance companies are also most desirous of arranging claims, as there can be no doubt about the 'bona fides' of the conflagration. It seems strange to classify "blazes", but an insurance agent's main look-out is this very necessary classification.

The market continued treading its way heavily and aggressively downwards at the second hour, having shaken off the bullish brake completely. It is very difficult to say when the reaction will set in, as the market is as limp as a wet rag, but it is quite clear that a drop of 14 points in 10 days is quite out of measure, immoderate, and must provoke a rally. It is possible and probable that this will surge up immediately; but at the same time it is pretty sure to be short-lived, as where formerly there was not a good seller on time, now the whole market is on the fall, and the very best signatures banging away when there is a chance, for dates. A very wonderful change truly. The bulls are simply breaking their heads against a stonewall. The price opened at 293.80 and left off fainting at 292.80. There is nothing doing in passes, but plenty of sellers on time. In stocks there was very brisk speculation in Catalinas, as it seems that the sentence of the Court is out and was known to many in the hall and ring who were buying furiously. However, the prices did not soar though the fact that they improved shews that the sentence is favorable to the company. People who profess to know say that the company gets an indemnity to be fixed by arbitrators and as regards the deposits will have all vessels which the fiscal deposits cannot handle. There was no interest for anything else.

The following is a summary of the business effected in stocks and shares at the second ring:—

There was so little doing in produce today that consignees said business was impossible, unless there comes a change of some kind, either a rise in gold or an improvement in the news from Europe. With gold at 310, they remarked, business was difficult; it is easy to imagine how things stand now. Anyhow, there does not seem much prospect of a revival under any circumstances till after Holy Week. The sale is reported of 4000 river hides at $16½ Oriental, which makes $17,79 Argentine gold.

The sale is reported of a league of camp in partido of Pringles for $55,000, buyer Mr. Felipe Vedoredo; the camp was formerly owned by Mr. W. Robertson Grant of Azul. Mr. Arthur Eborall acted as broker, and also in the following live stock transactions: 811 wethers for export at $9.50 placed in waggon and guia paid, buyer Mr. Casey; 400 cows 'al corte' to Mr. José Paz at $18, and some heifers to serve as basis for a herd at $40 each.

"The Navy Department have bought the s.s. Tiempo for the sum of £3,000:—seller Mr. P. A. Gartland—she will be the first steamer to undergo a complete overhauling in the new Dry Dock in the Puerto Madero, after which the National Government intends her for plying between here and the Southern ports. Lieutenant Irigaray has been appointed as Captain, and he has already taken her over for account of the Government.

A great deal is being written and said about the danger attendant on the use of Acetylene Gas, with a view to creating an unfavourable atmosphere. Now, neither this nor any other gas is a thing to be carried about in people's pockets to be played handball with, but the importers or introducers claim honestly and fairly that it is not a whit more dangerous than the many other gaseous arrangements with which human nature of the 19th century is afflicted. But to shew that much of what is said is intrinsically of a gaseous nature it is only necessary to look up the chapter of accidents from one and t'other, good, old, safe coal-gas and the maligned acetylene, and then compare. It will be urged that no comparison is possible on account of the vastly different scale on which both are used, but take coal gas in its infancy, and if it has not worked twice the woe of Acetylene the introducer of the latter into the Plate will eat it. Seriously, there is, it is said, no such danger of explosion as is contended, unless there is gross carelessness or a desire to commit suicide.

What is really a crying, solid abuse is the primitive way passengers luggage from the packets is treated. Instead of it being passed by the Customs officials on board or where it is landed, as would seem to be a civilized way of doing the thing, it is shipped clean away out of ken to the Darsena or some other such place as the owner can only get to with difficulty, and then revised when the officials think well. It is surely time that this outrageous system or rather lack of system were abandoned, and improved means arranged. It cannot be so very difficult and we call the Finance Minister's attention to the point in the assurance that it will be looked into and the corrective applied.

Land in the Madero Port

Sale by auction of the most valuable grounds of the Metropolis of the Republic where the important comercial firms will be established, and where within 5 years the finest, new stylish buildings will be edified

The situation of the district is the most advantageous, for the port is finished, and consequently the value of the ground is undoubtedly an immense one.

Capital invested in these grounds must indisputably increase, considering that the port cannot be moved and the ground cannot be extended, whilst the population is augmenting daily.

There is no doubt that any person who is proprietor of a piece of ground near the port has acquired fortune and a good rent.

Upset price 50$ per sq metre, extremely cheap, equivalent to 33.33 per square vara.

On Wednesday 5th May

At 3 p.m.

We will sell by auction on the very same grounds, according to the law No. 2599 and the decree of the Government, dated 17 March 1897 the grounds of the I and IV section with the base of $50 per metre. The Section No. 1 is bounded by the streets Paseo Colon, Estados Unidos, Europa and the planned Avenida Colon, representing a superficie of 2075.50/100 sq. meters, divided in 6 lots, forming four of same corners and being two of them situated opposites to two streets

The section IV is bounded by the streets Paseo Colon, Mexico, Chile and the planned Avenida Colon, representing a superfice of 2159.26/100 sq. metres and divided in six lots, four of which form corners and the other two are situated opposite two strests. All these lots are more or less between 300 to 400 square metres

By order of the Government the terms are cash down, and any buyer of same has to pay 5 % of the amount and our 2% commission when he signs his boleto.
